

DR. PERLA G. NAJMAN graduated from Nova Southeastern University College of Optometry in 1999. Following graduation, she worked for a year as an independent doctor of Optometry. She then returned to Nova Southeastern University to complete a one-year residency program in Primary Care Optometry with Emphasis in Cornea and Contact Lenses, and went on to serve as Chief Resident until 2002. Since that time she has been a full-time faculty member, where she currently holds the rank of Assistant Professor of Optometry. Dr. Najman has been honored with receiving the “Most Student-Friendly” award from the class of 2003. She has published posters in various topics in corneal disease and contact lenses, and has played a supporting role for the NBEO. Her current research interests include specialty contact lenses and wavefront analysis.

Dr. Najman’s teaching assignments have included OTM and Contact Lens laboratories, and both Primary Care and Contact Lens Clinics. She has also guest lectured in the Resident’s journal club, Physician’s Assistant program, and has participated in a number of contact lens workshops. Current teaching assignments are Primary Care Clinics and Contact Lens Clinics. She is now serving as the Chairperson of the Faculty Council Executive Committee.
