

ARAN EYE ASSOCIATES

RESIDENCY IN OCULAR DISEASE WITH EMPHASIS ON GLAUCOMA

IN AFFILIATION WITH

NOVA SOUTHEASTERN UNIVERSITY COLLEGE OF OPTOMETRY

PLEASE VISIT OUR WEBSITE AT WWW.ARANEYE.COM

BACKGROUND

Aran Eye Associates is a multi-subspecialty tertiary care referral private practice. We have several fully equipped offices throughout southeast Florida and are one of the largest ophthalmic practices in the region. We have been active in optometric education since the practice's inception in 1988. In addition to education for residents and externs, we sponsor continuing education seminars for local optometric physicians. Aran Eye Associates has a long history of dedication to optometric education in a friendly and exciting clinical environment. The practice is an excellent model for effective O.D. - M.D. patient management.

PROGRAM OVERVIEW

This program offers the resident intensive training in the management of ocular disease and trauma, as well as pre- and post-surgical patient care. In addition to the clinical training, there are weekly didactic lectures with our staff doctors participating in the Extern Grand Rounds. There is also the responsibilities of being the on-call physician and encouraged to become involved in the local county optometric associations.

As our resident, you will have the opportunity to observe surgical procedures performed by our staff ophthalmologists including, but not limited to: cataract extraction, penetrating keratoplasty (PKP), Descemet's stripping automated endothelial keratoplasty (DSAEK), as well as refractive

surgery such as LASIK and PRK. You will also observe oculoplastic surgeries and minor office procedures. Our residents have the opportunity to become proficient in the use and interpretation of visual fields, biometry and Optical Coherence Tomography.
