

MISSION STATEMENT

The Residency in Primary Eye Care seeks to attract the best-qualified optometric graduates and provide advanced clinical and didactic education in optometry. The program offers a variety of optometric and interdisciplinary care and is designed to foster a life-long commitment to learning. Graduates of this residency program are trained to deliver superlative clinical care, to serve as optometric educators, and to serve the profession of optometry as leaders within the community and health care delivery system.

AREA OF EMPHASIS

Each primary care resident may select an area of emphasis in which to further his/her clinical knowledge. These areas may include ocular disease (three positions), cornea and contact lenses (two positions), pediatrics and binocular vision (two positions), and geriatrics and low vision (one position). The primary care with emphasis in ocular disease resident spends approximately 60 percent of his/her clinical time in primary care and 40 percent of his/her clinical time in specialty services related to the chosen area of emphasis. External rotations are also arranged with specialists based on the area of emphasis, with the schedule rotating about every four months. The amount of clinical time spent in the area of specialty may vary depending on clinical need or between each month rotation.

Nova Southeastern University

College of Optometry

3200 South University Drive

Fort Lauderdale, Florida 33328

NOTICE OF ACCREDITATION

Nova Southeastern University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate's, baccalaureate, master's, educational specialist, doctorate, and professional degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Nova Southeastern University.

NONDISCRIMINATION STATEMENT

Nova Southeastern University admits students of any race, color, sex, age, nondisqualifying disability, religion or creed, sexual orientation, or national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school, and does not discriminate in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs.

OPTOMETRIC RESIDENCY PROGRAM

Primary Care with Emphasis in Ocular Disease

PRIMARY CARE WITH EMPHASIS IN OCULAR DISEASE

The Eye Care Institute, with its wide diversity of patients and clinical facilities, provides a large ocular disease patient base. Through the Advanced Care Service and our outlying community-based clinics, The Eye Care Institute renders care for a wide range of ocular disorders, including glaucoma, retinal disease, and traumatic injuries. The resident will have access to advanced diagnostic equipment, including Spectral Domain OCT/OCTA, PreView PHP, digital fundus photography, automated visual fields, and ultrasonography. Residents in Primary Care with Emphasis in Ocular Disease enjoy regular rotations through our on-campus Urgent Care Service, Glaucoma Service, and Diabetes and Macular Disease Service. In addition, off-campus specialty rotations may include general ophthalmology, retina, oculoplastics, ocular oncology, cornea, and neuro-ophthalmology with fellowship-trained ophthalmologists committed to training residents. Residents provide patient care as a student preceptor as well as perform direct primary care throughout the year. External clinical rotations in optometric and/or medical subspecialties are also available and arranged throughout the year.

CURRICULUM

- supervision of patient care provided by student clinicians
- observation of care provided by specialized physicians
- direct patient care
- rotating after-hours urgent care
- laboratory teaching

- preparation of a paper of publishable quality
- assistance with the preparation of publishable abstracts
- delivery of lectures and grand rounds presentations
- grand rounds at NSU and the Bascom Palmer Eye Institute
- journal review and discussion
- independent study

PREREQUISITES

All candidates will be considered in a fair and impartial manner. The deadline for applications is February 1st. All candidates wishing to be considered must submit or meet the following criteria:

- current curriculum vitae
- three letters of recommendation
- official transcripts from ACOE- accredited college of optometry demonstrating a recommended minimum GPA of 2.8 or an average of 82 percent
- passing score on NBEO Part I to be interviewed and passing NBEO Part II/ TMOD to be placed
- completed application form
- ORMatch application
- submit to a personal interview
- obtain a Doctor of Optometry degree from an ACOE-accredited school or college of optometry
- required to take Part III and be license-eligible in Florida or another state and eligible for a Faculty Certificate
- valid social security number and/or visa

PROGRAM LENGTH AND SCHEDULE

The Primary Care Residency is a 12.5-month program. The salary is \$38,000

per year. The resident is expected to work up to 5.5 days per week. The clinics are open from 8:30 a.m. to 5:00 p.m. on Monday, Tuesday, Thursday, and Friday. All residents are expected to work for part of the year on Saturday, which is a half day, from 8:00 a.m. to 1:00 p.m. Clinical assignments vary and are determined by the residency director, with assignments rotating every 3-4 months.

BENEFITS

- professional liability insurance is covered for patient care provided at NSU clinical sites.
- health and dental insurance provided commensurate to faculty coverage.
- leave of 5.5 vacation days, 3 personal days, 5 sick days, and 10 professional development days to attend conferences and seminars.
- a travel stipend will be provided to attend professional conferences.
- business cards and clinic jackets
- residents may enroll in the on line NOVA Masters in Clinical Vision Science with tuition waiver during the year of residency, though student activity fees must still be paid by the resident.

COMPLETION REQUIREMENTS

- satisfactory evaluations by supervisors
- complete a manuscript of publishable quality
- attend all assigned conferences
- Prepare/deliver grand round presentations and lectures
- attend all scheduled clinical assignments
- complete all patient, didactic, and scholarship logs
- attend the minimum number (3) of local society meetings
